

Custom built and configured in USA

Covert Traffic Cone Deployment System™

Deploy a battery-powered outdoor covert cellular PTZ camera system on the ground in minutes – no pole, no wiring, no AC power

Built for Boundless Security's [The Rabbit™](#)

- **[The Rabbit™](#)** is an ultra low power, **outdoor covert cellular PTZ camera system** designed for extended battery-powered operation. It can be deployed as a covert pole camera for law enforcement or concealed on the ground. Its cylindrical form factor fits naturally in curved enclosures such as this one.
- The **[Covert Traffic Cone Deployment System™](#)** houses **[The Rabbit™](#)** in a self-contained unit that can be placed on the ground and be online in minutes.
- **[The Rabbit™](#)** provides live video, continuous internal video recording, PTZ control, and ONVIF / VMS integration anywhere there's cell service.
- **[The Rabbit™](#)** is sold separately and can be purchased pre-installed in the Cone, fully configured and ready for immediate deployment.

Long runtime with integrated battery

- ~1 week continuous operation (24/7) with live video streaming
- Up to ~2–3 weeks with scheduled operation

Key Capabilities

- **Self-contained system** — operates anywhere there's cellular service
- **Rapid deployment** — operational in minutes
- **Continuous video** — not motion-triggered
- **Records HD video internally** — not dependent on cellular quality
- **Long-range imaging** — 10X zoom, license plates up to ~450 feet
- **ONVIF-compatible** — integrates with **Real Time Crime Centers**

Built for real-world deployment

- Rugged, sealed construction keeps out rain, dirt, and ground moisture
- Internal battery can be recharged easily without opening the cone
- Hard-coated, scratch-resistant polycarbonate outer camera window
- Standard 42" traffic cone — naturally unobtrusive in public environments

It goes where the case goes™

Backside of **[Covert Traffic Cone Deployment System](#)** for **[The Rabbit™](#)**. 42" high to bottom of handle. Approx. 20 lb. with battery and camera system, not including rubber base. Camera window not shown.
